RE: Fifties Party for Nancy Fried Lew: Dated February 26, 2000

Dear Paula,

I want to thank you and AA Party Rentals for helping to make my party the outstanding success that it was. Under your guidance, I was able to use my home much more effectively than I had ever imagined. Coming directly to the party site certainly made a big difference and having a floor plan drawn out for me was a dream come true. Having a professional advise me of the possibilities gave me a whole new approach to entertaining and for that Paula, I am very appreciative. Now I know at a further date, I will look forward to using your company again.

Delivery of the tables and chairs was excellent. Very courteously, they set up the tables for me and put the chairs right next to the tables. Meanwhile, everyone just loved and commented on the James Dean and jukebox stand-ups, as well as the color scheme of red, black and grey.. When my guests first came, I took their pictures with a Polaroid camera and put them up on a board for all to see. Everything just looked dynamite! As the home was set up properly, the whole party just flowed so well, I just can't thank you enough Paula for all that you did.

Sincerely yours,

Nancy Fried Lew
